"Everyone's warmth and time given was lovely. Billie was incredible and so accommodating. The women involved were kind and appreciative so made it easy to run the class. Everyone helped with the set up and clean up so ran smoothly."

"When I moved to Frankland, I asked about the DART mentor role, I thought this is my chance to help, step forward and do something to help others which is one of the best decisions I have made."

**Would recommend  
our workshops**

“

The team are brilliant at delivering and engaging with everyone in the training to keep everything light but very educational. They were very helpful with any questions and had the perfect balance of information and polls and discussions to keep us all on our toes. Great training and great trainers!

# Workshops

# 96%

of supervisors would recommend  
having a volunteer to their colleagues

**For me, there was personal growth and job satisfaction. For the Team, the volunteer in question volunteered for the RAD at Durham Centre for Change & feedback has been nothing but brilliant. For the service, volunteers are a vital part of our service and the volunteer in question has been an asset to Humankind.**
