

IPS SUCCESS STORIES

FORKLIFT TRUCK DRIVER

"My Probation Officer referred me to Forward Leeds. Withdrawals, loneliness and anxiety all made it very difficult for me and they guided me past this.

"Paying for food, bills and seeing my children every other weekend were all a worry for me and this wasn't helping my mental health.

"My IPS Employment Specialist helped me realise a job would not only help my financial problems, it would also fill my time when I am on my own and help me with my lack of confidence.

"We concentrated on my CV and were able to put something together to use my work experience and show off my transferrable skills. She helped me search for the sort of jobs that I was interested in and apply for jobs.

"The support and encouragement helped me apply for a Forklift Truck Driver job. I was so happy when I got the job I messaged my IPS Employment Specialist to say that I feel like I've got a good opportunity to move forward.

"I can see a future now with my children. Her continued support means that just the text messages every few weeks to check that everything is going well, helps me know that someone cares and keeps me feeling positive."
